- None reported.

# WEATHER OF CONCERN

## Weather of Concern

- A cold low pressure system will affect portions of Northern California through the weekend. Snow levels will be below the 1000 ft. level as rain and shower may occur in mountainous areas.
- Southern California's gusty Santa Ana winds will diminish this afternoon across portions of Ventura and Los Angeles counties..

## **Active Weather Warnings, Watches and Advisories by County:**

- <https://alerts-v2.weather.gov/counties/CA>

# WEATHER SYNOPSIS BY REGION

## **NORTHERN CALIFORNIA**

Mild and dry weather is expected throughout the today. Light NW-NE winds this morning will diminish by early afternoon. Temperatures will be a few degrees above normal. There will be a few hours this afternoon with SW-NW winds gusting to 30 mph or so over the higher terrain in the far north as a weak disturbance passes to our NE. More light NW-NE winds are expected tonight and early Saturday. A cold front approaching from the north late Saturday afternoon will cause winds and clouds to increase. By late afternoon SE-SW gusts at lower elevations such as the Sacramento Valley will reach 25-30 mph and SW-NW gusts at higher elevations, especially in the north, will reach 40-50 mph. The front will move slowly through the region from north to south Saturday night and Sunday. Only northern and eastern areas will receive light precipitation. Snow levels will start out near 4000 ft, but drop to about 2000 ft as these conditions continue through Monday. Breezy northerly winds will return Sunday through Wednesday, with gusts in the most wind-prone areas reaching 30-40 mph. Another similar front will approach Thursday and move through Thursday night and Friday. In general, the front Saturday night and Sunday will begin a period of cooler than normal and unsettled weather for the next two weeks or more, with increasing amounts of precipitation during week two.

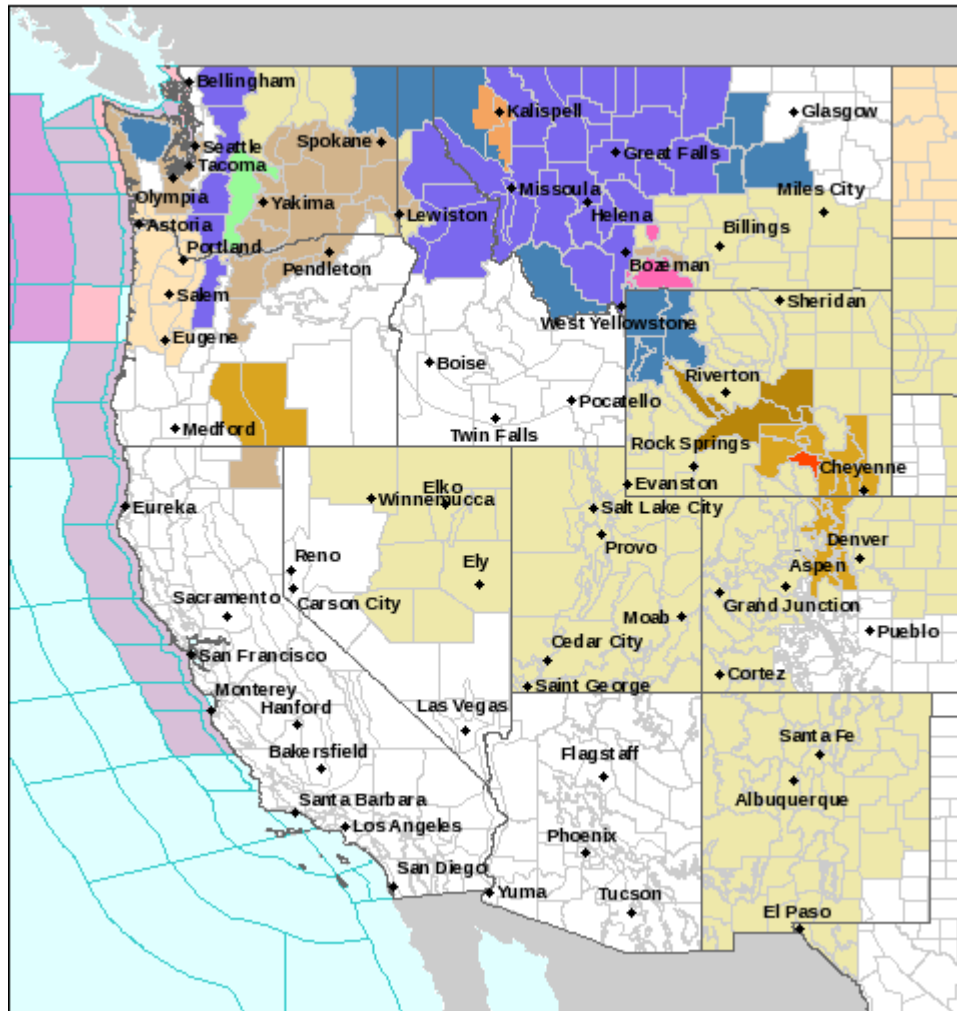

## **SOUTHERN CALIFORNIA**

A weak ridge of high pressure over California will cause temperatures to be 5 to 10 degrees above normal through Saturday, with 50s to low 60s across the mountains and upper 60s and 70s in the valleys. Minimum humidity will be mainly in the teens away from the coast through Saturday. There will be local northeast winds of 10 to 20 mph with gusts to 35 mph over the mountains and below the canyons and passes of Southern California this morning. Significant cooling and a big increase in humidity will occur Sunday and Monday as a deep trough drops south from Canada. Temperatures will be around 10 degrees below normal on Monday. This trough will bring isolated to scattered showers with light precipitation totals to the region Sunday night through Monday afternoon. Westerly winds of 20 to 40 mph with gusts to 60 mph will surface across the wind prone mountain and desert areas Sunday morning through Monday morning. Slow warming along with lower humidity will occur Tuesday through the end of next week as the trough over the West Coast weakens. However, temperatures will only warm up to near normal by the end of next week. There will be northerly winds of 20 to 40 mph with gusts to 60 mph across much of Santa Barbara County and the Grapevine Monday night.

# Cal OES LAW ENFORCEMENT MISSIONS

## Cal OES Law Missions

- **2018-LAW-45240, 2/15/18, 1112 hours,** IERCC advising of an InReach “SOS” activation at GPS coordinates 34°18’32”N -118°09’55”W, plotting on Forest Service Road 3N27, N/E of Big Tujunga Reservoir, Los Angeles County. IERCC sent texts to the device but received no response. They made contact with the registered owner who explained two of her employees were conducting a 10-day survey in the area of the activation and were in possession of the InReach device. She also said there was no cell service in this area. The description of the two female employees and their truck were given. At 1130 hours, LDO relayed the activation information to Los Angeles County Sheriff’s Department(LASD) who deployed a deputy. **Update: 2/15/18, 1332 hours,** LASD, La Crescenta Station, contacted the LDO and advised both females were located with no distress. Both were given a ride out as their truck was stuck in an area where there was no tow truck access. LDO updated IERCC. **Mission Closed.**
- **2018-LAW-45252, 2/15/2018, 1445 hours,** Mendocino County Sheriff’s Office(MCSO) requesting instruction and support from the California National Guard(CNG) Friendly Force Tracking(FFT) Program to provide one FFT personnel and one GEC20 workstation in order to provide GEC20 configuration and training for the Mendocino County Sheriff’s SWAT and SAR Teams with MCSO’s new FFT Nano’s. The set-up and training are scheduled for 2/21 and 2/25/2018. **Update: 2/15/2018, 1530 hours,** LDO submitted the request to CNG who accepted the mission. **Mission Ongoing.** (After today, this will be dropped from the LDO Morning report)
- **2018-LAW-45211, 02/10/18, 1500 hours:** The Los Angeles Police Department (LAPD) is requesting resources via the Region I, Regional Mutual Aid Coordinator, Los Angeles County Sheriff’s Department (LASD). LAPD is requesting the assistance of the California National Guard (CNG), 9th Civil Support Team (CST) to assist with the security of the 90th Academy Awards Ceremony in Hollywood Division of LAPD. The reporting date and time for the 9th CST is 03/04/18 at 1000 hours. **Mission Ongoing.**

# Cal OES MISSION TASKING

## Cal OES Missions

- **2018-Southern-44905:** Communications support, Baker to Vegas Annual Challenge Cup, San Bernardino County (Coordinating)
- **2017-SOC-44098:** CalRecycle Debris Management Team in Ventura County
- **2017-SOC-44022:** Two E-BAM (air monitors) from Air Resources Board/Office of Emergency Response to monitor smoke from the Thomas Fire. Location one: Olga Reed Elementary School (480 Centennial St., Los Alamos); Location two: Carpinteria City Hall (5775 Carpinteria Ave., Carpinteria) (On Scene)
- **2017-SOC-43821:** DTSC to remove household hazardous waste from over 500 residential lots in Ventura County (On Scene)
- **2017-Inland-42559:** Weather station installed to gather real time rainfall data by Air Resources Control Board (On Scene)
